

Crochet Tentacle Sea Anemone (Hot Pink Candy / Lemon-Lime Ice version)

designed by Kathleen Greco ©2009 Pattern for personal use only.

Beautiful Tentacle Sea Anemone glows under black light!

Create the Anemone in one piece with two sections: the cylinder column base and tentacle top. Any two colors of Fine Jelly Yarn can be used for the color combinations. These translucent Jelly Yarn colors will glow under black light: Lemon-lime Ice, Hot Pink Candy, and Raspberry Sorbet.

Notes:

- 1) Metal hooks recommended.
 - 2) Use vinyl protectant (i.e. Vinylex) or thick hand lotion to help stitches glide.
 - 3) To help keep the sides straight, gently stuff cylinder with bubble wrap, plastic bag, or fabric.
 - 4) Crochet cylinder in a counter-clockwise spiral direction working the Wrong Side out.
- I prefer to work Wrong side out, then turn the piece Right Side out when finished.
See How to crochet Wrong Side out Counter-clockwise: <http://www.craftydeb.com/tutorial01>

Yarn

Jelly Yarn 100% vinyl / 85 yds / 78m (www.jellyyarns.com)
Color A: Lemon-Lime Ice Jelly Yarn Fine (partial ball)

ch: chain
dc: double crochet
cm: centimetre
rnd: round
sc: single crochet
sl st: slip stitch
st/sts: stitch (stitches)
RS: right side
WS: wrong side

Glow Under Black Light

Tentacle Sea Anemone Pattern

Cylinder

With A yarn and H hook, ch 26, straighten chain, join to 1st ch with sl st to form ring. Place stitch marker and move up after each round.

Note: Work (WS) out by crocheting cylinder in counter-clockwise direction. (See Note 4.)

Rnd 1: Ch 1, sc in 2nd ch from hook and in each ch around, do not turn. (25 sts)

Rnd 2: Sc in each st around.

Repeat Rnd 2 working in a spiral around marker, forming the cylinder until height measures 1.5 inches (3.8cm).

Change to G hook.

Repeat Rnd 2 working in a counter-clockwise spiral around marker, forming the cylinder until the height measures a total of 3.5 inches (6.35cm).

Do not fasten off.

Note: Block by stuffing the cylinder overnight, to help keep the sides straight. Gently stuff cylinder with bubble wrap, plastic bag or fabric to hold shape.

Turn Right Side out. (See Note #4.)

Tentacle Top

Change to B yarn. *Note: Tie a square knot to join JY yarn colors.*

Tentacle: *With G hook, ch 15. Change to F hook, turn, sc in 2nd ch from hook, sc in next ch, dc in each ch across. (2 sc and 12 dc)

Ch 1, skip 1 st on cylinder, sc in next sc on cylinder.*

Repeat from * to * around for each tentacle. (13 tentacles)

Join with sl st to last sc on cylinder.

Fasten off and tie a double knot.

Finishing

Weave ends on inside of cylinder and tie a double knot to an inside loop. Trim ends.

Note: To widen the bottom and to help the piece stand, fold bottom edge of cylinder up about .5 inches (1.25cm). Unfold after a few hours or overnight.
